

Experiencing a Life Changing Summer in Taiwan

"I just watched a documentary on the life of Jesus and was hoping to talk to someone about Christianity!" James, a student at a Taiwan university, told Kristan, an MSU student, at an English party hosted by the team Kristan led to Taiwan. Alyssa, another MSU student, after praying about where to hang out on campus earlier that day, met and invited James to the English party. English parties are events to connect with students to share about our American culture and language, with the hope of talking about Jesus. Kristan shared with James about his faith in Jesus Christ and how he could have that faith as well. James became a follower of Jesus that night, was given a Bible in his native language, and met other Christians on his campus! Kristan and Alyssa have stayed in contact with James and are helping him to grow in his faith, even though they live an ocean apart!

One Story of God Working in Student's Lives From Our Summer In Medora

Red Moon Rising was a book resource students received this summer. It chronicles the past 10 years of the 24/7 prayer movement whose desire is to see people praying for 24 hours a day, 7 days a week. Those who are involved pray in shifts of usually one hour in a prayer room set up for 24/7 prayer. After reading this book, Tyler, a student from Wisconsin, gained a huge passion for prayer and wanted to try 24/7 prayer. In late June, he quickly organized students on the project and others who worked in Medora to take a week to pray 24/7. God provided them with a great location (the historic St. Mary's church) and for one week, they prayed non-stop for their friends, families, home campuses, for their faith to increase, and much more! For more info on 24/7 prayer visit:

Medora

That's right, baby boy #2 is well on his way! Scheduled to arrive on or around Oct. 1st, 2009. Praise God for new life!

We Moved!

Following Medora, we moved to our new home, which should hold our growing family for years to come! We are so thankful for God's provision! New address below.

Praises & Prayer

- Sadly, we ended up not going to our national staff conference in Ft. Collins because Kassidy ended up having emergency gall bladder removal surgery due to a build up of gall stones and complications related to them. Thankfully we were back in Minot, had family to help take care of Hudson, and the doctors and surgeon were able to treat Kassidy and Baby #2 safely. There are no complications from the surgery and Kassidy is fully recovered!
- Prayers for reliance on the Holy Spirit's leading and wisdom as we plan for the upcoming school year.
- For students involved with CCC at MSU to continue following their first love, Jesus.
